ABOUT

My first introduction to coding was when I took a C# class at TSU. I really took to it very easily. I like that if there's something you want to make, you can just do it. The only limit is your imagination. I already have ideas for things I'd use myself.

TECHNICAL SKILLS

Javascript | REACT | CSS |
HTML | Bootstrap | C#.NET |
SQL

PROJECTS

Metroid Maridia | Individual Project

*Metroid Maridia is an app for users to rate the metroid games they've played. **Utilized JavaScript, React, and JSON. CRuD functionality as a focus.***
