ABOUT ME

Following my graduation from undergrad, I decided to explore new career options and further my education through software development. I have discovered new passions in pursuing a career in tech, and am enthusiastic about this new direction. I enjoy solving problems and collaborating with others, and have enjoyed applying this through software development.

SKILLS

- HTML, Javascript, React
- CSS, Bootstrap
- GitHub, Git
- JSON
- C# and .Net
- Visual Studio and VS Code

EDUCATION

Nashville Software School

February 2021 - August 2021

Full Stack Web Development

Front-End Technologies: HTML, CSS, Javascript, React

Back-End Technologies: C#, .NET, SQL

Birmingham-Southern College

August 2016 - May 2020

BA in Political Science, Minor in Sociology

Honor Societies: Omicron Delta Kappa (President), Mortar Board, Alpha Psi Omega Theatre Society

Campus Leadership: Campus Ambassador, Student Government Association (Representative), Muslim Student Association (Treasurer, President).

TECHNICAL EXPERIENCE

Nashville Software School

February 2021 - August 2021

Full-Time intensive web development bootcamp

- Worked in teams and individually to create projects using a SCRUM framework
- Front-End Development using HTML, CSS, Javascript, and React
- Web application deployment and design
- Application deployment and management

PROJECTS

BOOKWORM

github.com

Bookworm allows users to be able to keep track of all of the books they have read and plan to read. Users can add books to their personal libraries, and categorize them by statuses. They can also chat with other users and recommend books

- Technologies: React JS, HTML, CSS, DBDiagram

GiffyGram

github.com

Giffygram is an application that lets users post .gif files in a social media style.

The app implements CRUD and lets users make, delete, and edit posts

- Technologies: React JS, HTML, CSS, DBDiagram

GROUP PROJECTS

Reactive Nutshell

github.com

The app is intended to serve as a personal planning social networking app. Users are able to chat with one another, and track their upcoming events, daily tasks, and interesting articles that they may have found

- Personal contributions: Events section
- Technologies: React JS, HTML, CSS, DBDiagram

Holiday Road

github.com

In a team with other software developers, we created a site that was intended to help users plan a trip to a national park. We emphasized an accessible user experience by providing easy access to information for users who may be wheelchair bound

- Personal contributions: National Park API management and section
- Technologies: Javascript, HTML, CSS, DBDiagram

WORK EXPERIENCE

TN Immigrant and Refugee Rights Coalition

Voter Engagement Coordinator | Nashville, TN | Oct. 2020 – Nov. 2020

- Directly communicated with registered voters about upcoming elections, encouraging them to vote and informing them of pertinent information relating to early voting and COVID-19 voting procedures
- Attended a voter protection seminar and compiled detailed notes in order to brief team members

Hollie Ray Boutique

Team Lead | Nashville, TN | Aug. 2020 – Feb. 2021

- Lead team members when necessary in handling cash registers, updating product inventory, and interacting with customers
- Maintained accurate and attractive merchandise displays in order to maximize customer engagement with products
- Directed other team members and sales associates through daily tasks and customer interactions, and mediated customer requests.

Birmingham-Southern College

Community Coordinator | Birmingham, AL | Sept. 2017 - May 2020

- Supervised a collaborative team of 10 residence life employees
- Collaborated closely with a team of seven fellow supervisors to develop monthly programming and ensured that reports were filed in a timely manner
- Strengthened community bonds among 1,500 students by planning community building and education events

Bread for the World

Government Relations Fellow | Washington, DC | June 2019 - July 2019

- Contributed to department advocacy efforts through extensive policy research
- Logged donor and advocate data into Blackbaud Raiser's Edge for donor and information management
- Aided in the planning and execution of a major advocacy event on Capitol Hill and proofread and edited related material
- Liaised between grassroots advocates and congressional staffers during advocacy events

Birmingham Museum of Art

Development Intern | Birmingham, AL | Feb. 2019 - May 2019

- Compiled packets for donors and constituents to aide museum fundraising efforts.
- Spearheaded major donor data clean up in Blackbaud Altru's constituent database.
- Worked closely with supervisors to execute and track key museum fundraising events, raising over \$650,000.
- Administered mailing lists and sent donor appreciation gifts.
