ABOUT ME

I am a former massage therapist who decided to make a career change to follow my passion of working in technology. I have been fascinated by the technological world from a very young age, but only recently decided to take the plunge. Since starting on this journey, I have found much more joy in my day-to-day life, and I am looking forward to seeing where this road takes me.

PROJECTS / TECHNOLOGIES USED

StoreWorks | Solo Project

StoreWorks is a full-stack, single-page React app built for owners and managers of product-based businesses to track their incoming, outgoing, and on-hand inventory.

- [See Code](#)
- HTML, CSS, JavaScript, React, C# .NET, SQL

.....

Reactive Nutshell | Group Project

Reactive Nutshell is a single-page, social media app with features such as: Friends, Public & Private Messages, To-Do Lists, News Articles, and Events.

For this project, my primary responsibilities included building and styling the to-do list and private messaging features, while collaborating with three other developers about the overall direction of our project
