COLTEN MAYBERRY

SOFTWARE DEVELOPER

ABOUT

Despite working in a variety of fields, software development has always interested me.

In every job I had, I would try to find ways to include simple, basic programs into my workflow.

After a challenging year, I decided I would finally commit myself to doing professionally what I was already passionate about personally.

Software development has now become an important part of my life, not just a hobby. My passion for learning new languages and new ways to think about code has only grown.

SKILLS

- JavaScript
- React
- C#
